Uniform Data System Reporting Tables for 2021 Health Center Data

PUBLIC BURDEN STATEMENT

The Uniform Data System (UDS) provides consistent information about health centers including patient characteristics, services provided, clinical processes and health outcomes, patients' use of services, costs, and revenues. It is the source of unduplicated data for the entire scope of services included in the grant or designation for the calendar year. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. The OMB control number for this project is 0915-0193 and it is valid until 02/28/2023. This information collection is mandatory under the Health Center Program authorized by section 330 of the Public Health Service (PHS) Act ([42 U.S.C. 254b](#)). Public reporting burden for this collection of information is estimated to average 238 hours per response, including the time for reviewing instructions, searching existing data sources, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Health Resources and Services Administration (HRSA) Reports Clearance Officer, 5600 Fishers Lane, Room 14N136B, Rockville, Maryland, 20857 or paperwork@hrsa.gov.

- The total patients reported by insurance type must match on Table 4 (Lines 7–12) and the Zip Code Table. For example, total Medicare patients on Table 4 (Line 9) must match the total of the Medicare Column D on the Zip Code Table.
- Charges and collections by payer on Table 9D relates to insurance enrollment on Table 4. For example, dividing Medicaid revenue on Table 9D, Line 3, Column B by Total Medicaid Patients on Table 4, Line 8 equals the average collection per Medicaid patient.
- Reporting of managed care revenue on Table 9D relates to member months on Table 4. Dividing managed care capitation revenue by member months equals average capitation per member per month (PMPM). For example, dividing Medicaid capitated revenue (Table 9D, Line 2a, Column B) by Table 4, Line 13a, Column A equals Medicaid PMPM.
- If you submit Grant Reports, the total number of patients reported on the grant table must be less than or equal to the corresponding number on the Universal Report for each cell.

- CPT (2021)—[American Medical Association \(AMA\)](#)
- Code on Dental Procedures and Nomenclature CDT Code (2021)—Dental Procedure Codes. [American Dental Association \(ADA\)](#)

“X” in a code: Denotes any number, including the absence of a number in that place. Dashes (-) in a code indicate that additional characters are required. ICD-10-CM codes all have at least four digits. These codes are not intended to reflect whether or not a code is billable. Instead, they are used to point out that other codes in the series are to be considered.

Table 6A Cross-Table Considerations:

- The count of patients by diagnosis reported on Table 6A will not be the same count as on Tables 6B and 7, due to differences in criteria that must be met for inclusion on Tables 6B or 7.
- If you submit Grant Reports, the total number of patients and visits reported on the grant table must be less than or equal to the corresponding number on the Universal Report for each cell.

For example, dividing Medicaid revenue on Table 9D, Line 3, Column B by Total Medicaid Patients on Table 4, Line 8 equals the average collection per Medicaid patient.
- Other Public on Table 9D should be consistent with Table 4 except that Other Public categorical grants such as Title X and BCCCP are not insurance and the patients are usually classified as Uninsured on Table 4.
- Managed care revenue on Table 9D relates to member months on Table 4. Dividing managed care capitation revenue by member months equals average capitation per member per month (PMPM). For example, dividing Medicaid capitated revenue (Table 9D, Line 2a, Column B) by Table 4, Line 13a, Column A equals Medicaid PMPM.
- Billable visits reported on Table 5 should relate to patient charges reported on Table 9D.

Appendix D: Health Center Health Information Technology (HIT) Capabilities

INTRODUCTION

The HIT Capabilities Form collects information through a series of questions on the health center's HIT capabilities, including EHR interoperability and eligibility for CMS Promoting Interoperability programs. The HIT Form must be completed and submitted as part of the UDS submission. The form includes questions about the health center's implementation of an EHR, certification of systems, and how widely adopted the system is throughout the health center and its providers.

There are no major changes to this form.

QUESTIONS

The following questions appear in the EHBs. Complete them before you file the UDS Report. Reporting requirements for the HIT questions are on-screen in the EHBs as you complete the form. Respond to each question based on your health center status **as of December 31**.

- Does your health center currently have an electronic health record (EHR) system installed and in use, at minimum for medical care, by December 31?

a. Yes,
installed at
all service delivery
sites and used by
all providers

- For the purposes of this response, "providers" mean all medical providers, including physicians, nurse practitioners, physician assistants, and certified nurse midwives.
- Although some or all of the dental, mental health, or other providers may also be using the system, as may medical support personnel, this is not required to choose response (a).
- For the purposes of this response, "all service delivery sites" means all permanent service delivery sites where medical providers serve health center medical patients.
- It does not include administrative-only locations, hospitals or nursing homes, mobile vans, or sites used on a seasonal or temporary basis.
- You may check this option if a few newly hired, untrained personnel are the only ones not using the system.

b. Yes, but only
installed at
some service
delivery sites
or used by
some providers

- Select option (b) if one or more permanent service delivery sites did not have the EHR installed or in use (even if this is planned), or if one or more medical providers (as defined on this page under [a]) do not yet use the system.
- When determining if all providers have access to the system, the health center should also consider part-time and locum providers who serve clinic patients.
- Do not select this option if the only medical providers who did not have access were those who were newly hired and still being trained on the system.

c. No

- Select "no" if no EHR was in use on December 31, even if you had the system installed and training had started.
- If the health center purchased an EHR but has not yet put it into use, answer "no."

This question seeks to determine whether the health center installed an EHR by December 31 and, if so, which product was in use, how broad system access was, and what features were available and in use. DO NOT include PMS or other billing systems, even though they can often produce much of the UDS data.

If a system is in use (i.e., if [a] or [b] has been selected), indicate that it has been certified by the Office of the National Coordinator—Authorized Testing and Certification Bodies.

1a. Is your system certified by the Office of the National Coordinator for Health IT (ONC) Health IT Certification Program?

- a. Yes
- b. No

Health centers are to indicate the vendor, product name, version number, and ONC-certified health IT product list number. (More information is available at <https://chpl.healthit.gov/#/search>.) If you have more than one EHR (if, for example, you acquired another practice with its own EHR), report the EHR that will be the successor system or the EHR used for capturing primary medical care.

1a1. Vendor

1a2. Product Name

1a3. Version Number

1a4. ONC-certified Health IT Product List Number

1b. Did you switch to your current EHR from a previous system this year?

- a. Yes
- b. No

If “yes, but only at some service delivery sites or for some providers” is selected, a box expands for health centers to identify how many service delivery sites have the EHR in use and how many (medical) providers are using it. Please enter the number of service delivery sites (as defined under question 1) where the EHR is in use and the number of providers who use the system (at all service delivery sites). Include part-time and locum medical providers who serve clinic patients. Count a provider who has separate login identities at more than one service delivery site as just one provider.

1c. Do you use more than one EHR or data system across your organization?

- a. Yes
- b. No

1c1. If yes, what is the reason?

- a. Additional EHR/data system(s) are used during transition to primary EHR
- b. Additional EHR/data system(s) are specific to one service type (e.g., dental, behavioral health)
- c. Additional EHR/data system(s) are used at specific service delivery sites with no plan to transition
- d. Other (please describe _____)

- 1d. Is your EHR up to date with the latest software and system patches?
- a. Yes
 - b. No
 - c. Not sure
- 1e. When do you plan to update/install the latest EHR software and system patches?
- a. 3 months
 - b. 6 months

Appendix E: Other Data Elements

INTRODUCTION

The questions on the Other Data Elements Form collect information on the changing landscape of health centers to include expanded services and delivery systems.

The reporting of COVID-19 vaccines provided to health center patients has been moved from this form to Table 6A.

QUESTIONS

Report on these data elements as part of your UDS submission. Topics include medication-assisted treatment (MAT), telehealth, and outreach and enrollment assistance. Respond to each question based on your health center status **as of December 31**.
